

## Walk Bulldozer Loader The Perfect Combination Of Strength And Mobility BOCAT S55

Our Product Introduction

for more products please visit us on [yuweimachinery.com](http://yuweimachinery.com)

### Basic Information

### Product Specification

- Ripper: Single Shank
- Marketing Type: Hot Product 2019
- Engine: CAT Diesel Engine
- Walk: Crawler Type
- Weight: 36.5 T
- Net Power: 120kw
- Track Type: LGP
- Tonnage: 50
- Highlight: **Mobility Walk Bulldozer Loader ,  
BOCAT S55 Walk Bulldozer Loader**

## Product Description

### Product Description:

The machine weight of this bulldozer loader is 17000kg, making it a heavy-duty workhorse that can handle any task with ease. Whether you are working on a construction site or a mining operation, this machine is built to get the job done quickly and efficiently. The track type of this bulldozer loader is LGP, which stands for Low Ground Pressure. This means that the tracks are designed to distribute the weight of the machine evenly, reducing the impact on the ground and minimizing damage to delicate surfaces. This makes it an ideal choice for a variety of applications, including site preparation, road building, and land clearing. With a 2-year warranty, you can have peace of mind knowing that your investment is protected. Our experienced technicians have thoroughly inspected this bulldozer loader to ensure that it meets our rigorous standards for quality and performance. When it comes to moving type, there is no better choice than a crawler bulldozer. With its powerful engine and sturdy construction, this machine is built to handle the toughest terrain, making it the ideal choice for jobs that require maximum power and durability. Whether you are working on a construction site, a mining operation, or a demolition project, this bulldozer loader is the perfect choice for your needs. With its outstanding performance, reliability, and durability, it is sure to exceed your expectations and help you get the job done quickly and efficiently.

### Applications:

With its powerful engine and durable tracks, the bulldozer loader can easily move heavy materials and debris from one location to another. Its LGP track type provides excellent traction and stability on uneven terrain, making it ideal for outdoor work environments. This used bulldozer loader comes with a 2-year warranty, ensuring that it is a reliable and long-lasting investment for any business. It is an excellent choice for companies looking to expand their fleet of heavy machinery or replace an old bulldozer loader. One of the main advantages of using a bulldozer loader is its versatility. It can be used for a wide range of applications, including grading, digging, leveling, and pushing. This makes it an essential tool for construction companies, mining operations, and forestry management. Whether you need to clear a large area of land, move materials to a different location, or level a construction site, the bulldozer loader is the perfect machine for the job. Its powerful engine and durable tracks allow it to tackle even the toughest tasks with ease. In summary, the Used Bulldozer Loader with LGP track type and 120kw net power is a must-have for any business that requires heavy machinery. With its 2-year warranty, versatility, and durability, it is a reliable investment that will provide many years of service.

### Customization:

### Support and Services:
