Product Description

Product Description:

Our Used Wheel Loader is equipped with a range of impressive features that make it stand out from the competition. For starters, it boasts a tire size of 26.5-25, which provides excellent traction and stability in a variety of terrains. This makes it perfect for use in agricultural settings, where the ground can be uneven and unpredictable.
In addition to its impressive tire size, our loader is also highly versatile, with the ability to transport goods by air, land, or sea. This means you can easily get your equipment to where it needs to be, regardless of the location or the terrain.
When it comes to power, our Used Wheel Loader packs a punch, with a gross power of 220 Hp. This makes it ideal for heavy-duty tasks, such as construction work or mining. The 4WD drive type ensures that the loader can handle even the toughest jobs, with ease.
So why wait? If you're in the market for a top-quality Used Wheel Loader, look no further than our reliable and efficient loader. With its powerful engine, versatile transportation options, and sturdy construction, it's the perfect choice for farms, retail settings, and construction works. Contact us today to learn more about our Used Wheel Loader and to place your order!

Features:

Product Name: Used Loader
Marketing Type: Used Wheel Loader
Gross Power: 220 Hp
Drive Type: 4WD
Moving Type: Wheel Skid-Steer Loader
Core Components:
Pressure Vessel
Motor
Engine
This product is a Used Wheel Loader. It has a Gross Power of 220 Hp and a 4WD drive type. Its moving type is a Wheel Skid-Steer Loader. Its core components include a Pressure Vessel, Motor, and Engine.

Technical Parameters:

Applicable Industries	Farms, Retail, Construction Works
Product Type	Mechanical Machinery
Gross Power	220 Hp
Marketing Type	Used Wheel Loader
Discharge Height	2.746 M
Condition	Used
Drive Type	4WD
Tire Size	26.5-25
Moving Type	Wheel Skid-Steer Loader
Core Components	Pressure Vessel, Motor, Engine

Applications:

One of the primary application occasions for this loader is in farms. Farmers can use this loader to move heavy loads of hay, manure, or other materials around the farm. The loader can also be used to clear snow during the winter months.
The retail industry can also benefit from the use of this loader. Retailers can use it to move large quantities of goods around the warehouse, or to load and unload trucks. The loader's 4WD drive type makes it suitable for use in outdoor settings, such as construction sites or lumber yards.
The construction works industry can also benefit from this used wheel loader. The loader can be used to move large quantities of materials, such as dirt, gravel, and sand. It can also be used to load and unload trucks, making it an essential tool on construction sites.
Overall, the Used Wheel Loader from Japan is a useful and versatile machine that can be used in a variety of industries. Its reliable performance and 4WD drive type make it suitable for use in harsh working conditions. Whether you are a farmer, retailer, or construction worker, this loader can help make your job easier and more efficient.
