

## 120kw Net Power Used Bulldozer Crawler Machine SEM 655 D Easy Maintenance

Our Product Introduction

for more products please visit us on [yuweimachinery.com](http://yuweimachinery.com)

### Basic Information

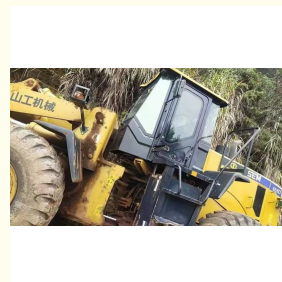

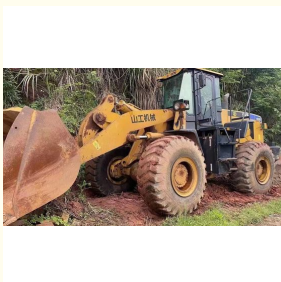

### Product Specification

- Engine: CAT Diesel Engine
- Track Type: LGP
- Ripper: Single Shank
- Net Power: 120kw
- Weight: 36.5 T
- Marketing Type: Hot Product 2019
- Unique Selling Point: Easy Maintenance
- Type: Crawler Machine
- Highlight: 120kw Used Bulldozer,  
SEM 655 D Used Bulldozer,  
Easy Maintenance Used Bulldozer

## Product Description

### Product Description:

The bulldozer loader comes with a crawler type walk, which makes it suitable for working on uneven terrains. The machine can move around with ease and can be used in different weather conditions. The crawler type walk ensures that the bulldozer loader can perform various tasks without getting stuck in the mud or snow.

The bulldozer loader comes with LGP track type, which enhances its stability and traction. The LGP track type makes the machine ideal for working on soft and loose soil, as it provides better flotation and reduces ground pressure. The track type also ensures that the bulldozer loader can work on steep slopes without slipping or losing traction.

The CAT diesel engine is one of the most reliable engines in the market. It ensures that the bulldozer loader can perform various tasks without experiencing any mechanical failures or breakdowns. The engine is also fuel-efficient, which makes it ideal for long hours of operation. The bulldozer loader can work for several hours without needing to refuel.

The bulldozer loader is suitable for various construction tasks, including site preparation, road construction, and excavation. It is a versatile machine that can be used for different tasks, making it a valuable asset for any construction company. The bulldozer loader is also easy to operate, which means that even novice operators can use it without experiencing any challenges.

In summary, the Used Bulldozer Loader is a reliable and versatile machine that can perform various tasks in the construction industry. It comes with a CAT diesel engine, LGP track type, and crawler walk, which make it suitable for working on different terrains. The machine is also fuel-efficient, easy to operate, and can work for long hours without experiencing any breakdowns. If you are looking for a reliable and efficient bulldozer loader, then the Used Bulldozer Loader is an excellent choice.

### Applications:

The Used Bulldozer Loader is equipped with a powerful 120kw engine that ensures high-performance and productivity in any work environment. Its LGP track type enhances its stability and traction, making it an excellent choice for heavy-duty tasks.

One of the unique selling points of our Bulldozer Loader is its easy maintenance system. With its user-friendly design, it is easy to maintain and repair, reducing downtime and increasing productivity.

Our Bulldozer Loader is a hot product of 2019, and its versatility makes it suitable for a wide range of applications. Here are some of the product application occasions and scenarios:

Excavation and earthmoving tasks in construction sites

Landscaping and terrain modification projects

Mining and quarry operations

Forestry and land clearing

Road and highway construction

Whether you are working on a small or large-scale project, our Bulldozer Loader is an excellent addition to your equipment fleet. Its durability and performance guarantee that it will get the job done efficiently and effectively.

### Customization:

Customize your Bulldozer Loader with our product customization services. Our used Bulldozer Loader has the following attributes:

Tonnage: 50

Machine Weight: 17000kg

Walk: Crawler Type

Location: United States

Unique Selling Point: Easy Maintenance

With our customization services, you can modify your Bulldozer Loader to fit your specific needs and preferences. Whether you need to add or remove features, we can help you create the perfect machine for your job. Contact us today to learn more about our product customization services.

### Support and Services:

Our technical support and services for Used Bulldozer products include:

Inspection and evaluation of the bulldozer's condition

Identification of necessary repairs or replacement parts

Repair and replacement of faulty parts

Regular maintenance services to ensure optimal performance

Technical assistance for any issues or concerns with the bulldozer

We are committed to providing reliable and efficient technical support and services to ensure the longevity and performance of your used bulldozer.
