

Moving Type Wheel Skid-Steer Loader BOCAT S550 Used Loader For Construction Works Working

Basic Information

Product Specification

- Original: Japan
- Moving Type: Wheel Skid-Steer Loader
- Gross Power: 220 Hp
- Marketing Type: Used Wheel Loader
- Condition: Used
- Product Type: Mechanical Machinery
- Mode Of Transport: Ocean Freight/ Air Freight/ Land Freight
- Drive Type: 4WD
- Highlight: **Moving Type Used Loader,
Construction Works Used Loader,
Used Loader BOCAT S550**

Product Description

Product Description:

Our Used Wheel Loader comes with a range of core components that have been tested and proven to be reliable and long-lasting. These include a Pressure Vessel, Motor and Engine that work together to ensure that you have all the power you need to get the job done.

In addition to these core components, our Used Wheel Loader also comes with a range of other features that make it a great choice for any job site. These include a tire size of 26.5-25 that provides excellent traction and stability, as well as a Gross Power of 220 Hp that allows you to move heavy loads with ease.

Whether you are working on a construction site, a mining operation, or any other heavy-duty job, our Used Wheel Loader is the perfect choice for you. With its reliable performance, powerful engine, and durable components, you can be confident that you are getting a machine that will work as hard as you do.

So why wait? Contact us today to learn more about our Used Wheel Loader and how it can help you get the job done. We are committed to providing you with the best possible service and support, and we are confident that you will be satisfied with your purchase.

Features:

Product Name: Used Wheel Loader

Gross Power: 220 Hp

Engine Brand: Top Brand

Tire Size: 26.5-25

Drive Type: 4WD

Core Components:

Pressure Vessel

Motor

Engine

Technical Parameters:

Tire Size	26.5-25
Drive Type	4WD
Engine Brand	Top Brand
Applicable Industries	Farms, Retail, Construction Works
Condition	Used
Marketing Type	Used Wheel Loader
Core Components	Pressure Vessel, Motor, Engine
Year	2005
Original	Japan
Product Type	Mechanical Machinery

Applications:

The Used Wheel Loader is suitable for different occasions and scenarios. One of the main areas where it comes in handy is in construction sites. The loader can be used to carry heavy loads of construction materials, such as sand, gravel, and concrete, from one location to another. It can also be used to dig trenches, excavate foundations, and level the ground. The loader's working weight of 3121 KG makes it suitable for carrying heavy loads without compromising its stability.

Another area where the Used Wheel Loader can be used is in the agricultural sector. Farmers can use it to move large quantities of agricultural produce, such as grains and fruits. The loader can also be used to carry animal feed and other farm inputs. Additionally, it can be used to clear land, level fields, and prepare the soil for planting. The loader's 4WD drive makes it suitable for use in muddy and slippery terrain, making it easier for farmers to work in adverse weather conditions.

The Used Wheel Loader can also be used in mining sites. The loader can be used to carry heavy loads of minerals, such as coal and iron ore, from the mining site to the processing plant. Additionally, it can be used to excavate rocks and other hard materials from the ground. The loader's robust design and powerful engine make it suitable for use in harsh mining environments.

Overall, the Used Wheel Loader is an essential piece of machinery that can be used in various applications. Whether it is in construction sites, agricultural fields, or mining sites, the loader's versatility and reliability make it a valuable asset. The loader's 4WD drive, working weight, and tire size make it suitable for use in different terrains, and its ability to be transported using different modes of transport makes it convenient to move from one location to another.

Customization:

Support and Services:

Our company offers comprehensive technical support and services for our Used Loader product. Our team of experienced technicians is available to provide troubleshooting assistance, repair services, and maintenance support to ensure that your loader is operating at peak performance. We also offer training programs to help you and your team fully utilize the features and capabilities of your loader.

Additionally, our parts department can assist with replacement parts and accessories to keep your equipment running smoothly. Contact us for more information on our technical support and services.
