Basic Information

Product Specification

- Drive Type: 4WD
- Engine Brand: Top Brand
- Condition: Used
- Tire Size: 26.5-25
- Year: 2005
- Working Weight: 3121 KG
- Moving Type: Wheel Skid-Steer Loader
- Marketing Type: Used Wheel Loader
- Highlight: **Revolutionized Wheel Loader SEM 650,
Mechanical Machinery Wheel Loader SEM 650,
Used Wheel Loader SEM 650**

Product Description

Product Description:

This used wheel loader is powered by a gross power of 220 Hp, which makes it capable of handling even the toughest jobs. With this kind of power, you can be assured that you will be able to complete your tasks quickly and effectively. Whether you're loading materials into a truck or digging up dirt, this used wheel loader is up to the task.

When it comes to transport, this used wheel loader is versatile and can be transported by ocean freight, air freight, or land freight. This means that you can easily transport it to your job site, regardless of your location. The tire size is 26.5-25, which means that it can handle a variety of terrains and conditions.

The discharge height of this used wheel loader is 2.746 M, which makes it easy to load materials into high trucks or containers. This makes it ideal for use in construction sites or industrial applications where high discharge heights are required.

In summary, if you're in need of a reliable and efficient used wheel loader, then look no further than our inventory. Our used wheel loader is designed to provide exceptional performance and durability in a variety of industries such as farms, retail, and construction works. With a gross power of 220 Hp, this used wheel loader is capable of handling even the toughest jobs, and with its versatile transport options and tire size of 26.5-25, it can handle a variety of terrains and conditions. The discharge height of 2.746 M makes it ideal for use in construction sites or industrial applications where high discharge heights are required. So, why wait? Contact us today to learn more about our used wheel loader and how it can help make your work easier and more efficient.

Features:

Product Name: Used Wheel Loader

Engine Brand: Top Brand

Year: 2005

Tire Size: 26.5-25

Discharge Height: 2.746 M

Original: Japan

Technical Parameters:

Engine Brand:	Top Brand
Condition:	Used
Tire Size:	26.5-25
Year:	2005
Core Components:	Pressure Vessel, Motor, Engine
Product Type:	Mechanical Machinery
Discharge Height:	2.746 M
Marketing Type:	Used Wheel Loader
Gross Power:	220 Hp
Applicable Industries:	Farms, Retail, Construction Works

Applications:

One of the most significant benefits of a used wheel loader is its ability to work on multiple surfaces. It can handle rough, uneven, and soft terrain, making it a perfect choice for the farming industry. It can work on farms by loading and moving heavy bales of hay, silage, and other farm materials, making work more efficient and productive.

Used Wheel Loader is also ideal for the retail industry. It can work in warehouses and distribution centers to move and load heavy boxes and pallets, making it easier and faster to move goods in and out of the facility. It can also handle snow removal during winter months, making it an essential machine for retail establishments, especially in areas with heavy snowfall.

In the construction industry, Used Wheel Loader can handle various tasks, including moving heavy construction materials, demolishing old structures, and excavating sites. It can load and transport materials, such as sand, gravel, and stones, from one site to another, making it an essential machine on any construction site.

Overall, Used Wheel Loader is an excellent machine for various industries and applications. Its gross power of 220 Hp ensures that it can handle any task, no matter how heavy or demanding. Its versatility, durability, and reliability make it an ideal machine for anyone looking to increase productivity and efficiency in their operations.

Customization:

Customize your Used Wheel Loader with our Product Customization Services:

Gross Power: 220 Hp

Discharge Height: 2.746 M

Original: Japan

Product Type: Mechanical Machinery

Core Components: Pressure Vessel, Motor, Engine

Make your Used Wheel Loader work for you with our customization options.

Support and Services:

The Used Loader product technical support and services include:

Assistance with troubleshooting and resolving technical issues

Guidance on maintenance and upkeep of the loader

Access to manuals and documentation for the loader

Recommendations for replacement parts and accessories

Training on proper operation and safety measures

Repairs and overhauls by certified technicians
